Terry-Towel Division

Our Company is also engaged in manufacturing and trading of premium quality of terry towels in addition to manufacturing of LPG Cylinders, Valves, Regulators, Disposable Cylinders, Mathyl Bromide Cylinders & Refilable Cylinders etc. Our Company has a top-of-the-line manufacturing facility to manufacture world-class terry towels as per the prevailing international standards. The manufacturing facility of the company is spread over an area covering 150000 sq. ft. in a prime location of Sohna Road (Faridabad), near to the capital New Delhi (India)

Our products are designed by our proficient professionals using premium quality fabric and modern machines in line with the set quality standards. Prior to dispatch, these products are checked and well-packed on various parameters. Provided products are demanded in commercial and residential places. Obtainable in numerous colours, sizes and patterns, these products are widely commended by our clients for their light weight, fade free nature, high quality, tear resistance and fine finish. We export our products to Oman, Bahrain, UAE, US, Europe, Australia among other Countries.

Our infrastructure consists of administrative, designing & production, sales & marketing, warehousing & packaging, logistics, quality control and many more. These sections are handled efficiently by our specialized professionals to ensure trouble free operations.

Our Manufacturing unit comprises of a modern facility and a weaving plant equipped with all the relevant machines. The ultramodren Terry Towel Manufacturing Unit has the state-of-the-art technology and has over **30 looms including SMIT Rapier, Airjet Tsudocama, Jacquard Machines from bonas and Soft Flow Dyeing Machines** from the eminent companies of the Korea, Europe and Japan to easily meet the market demands. All the machines that we have in our premise are of new age computer based technology, hence give better output.

Automatic Fabric Inspection machine has been installed to ensure that only zero defect fabric goes for production. To lend smooth velvet finish to the products, specialized shearing machines have been imported. The end product is also inspected by the finishing team for even minor defects, if any. The objective is to ship only those products which reflect MUL's unflinching commitment to quality.
